# TRANSFORMING STUDENTS' LIVES

A college education not only makes a positive difference in a person's job outlook and earning potential, but it also changes students' lives and the lives of their family members. A majority of our students need scholarships to help them pay for college, otherwise it wouldn't be possible for them. In fact, a great number of our students are the first in their family to go to college and they work while attending college.

Without LCC, thousands of students and adult learners would not be able to access the education they need to be prepared for further education or the workplace. We are the access point for education and a real catalyst for economic development in our community.

LCC offers students a broad array of certificate and associate degree programs. These programs range from business to healthcare to graphic design to music and psychology.

Whether students want to take a single course for personal enrichment or earn a degree in a career field and go straight into the workforce, or transfer to a 4-year institution, LCC is there to help them achieve their goals.

Gifts to the LCC Foundation are providing much-needed financial resources for scholarships and other programs. Contributions extend educational and career preparation opportunities to literally thousands of individuals each year.
