August 11, 2011

Board of Trustees:

Attached you will find Labette Community College's 2011 Annual Report. The information comes from all areas of our College in an attempt to provide you with a comprehensive view of what we have accomplished over the past year. The report starts with our Strategic Planning process so you get an idea of the big picture, including the Institutional Goals and Outcomes that the Board helped us to write. Our 5 year visions and a report showing how Labette Community College's Strategic Plan supports Kansas Board of Regents *FORESIGHT 2020* plan is also included. The last part of the process shows how the various committees' support the strategic plan.

Next, we have included our Organizational Charts to show how each area is put together, a report from each of our clubs and organizations, and a list of highlights showing how each Goal and outcome is supported by all areas of the institution. From here, we include the completed operational plans for FY2011.

Hopefully this annual comprehensive overview will serve the needs of the board. It also serves as way for us to show our transparency as required by the Higher Learning Commission. Once the annual report has been reviewed by the Board of Trustees, the information will be shared with all Labette Community College employees and adjunct instructors.

Finally, this Annual Report is a testament to the outstanding work all of our faculty, staff, and administration do every day for our students. I know you will be as pleased as I am with our results.

Sincerely,

George C. Knox, Ed.D.  
President
