**ANNUAL
REPORT
FY2024**

Labette Community College

Introduction

Labette Community College's 2024 Annual Report is a comprehensive description of how we satisfied our mission, "...to provide quality learning opportunities in a supportive environment for success in a changing world" from July 1, 2023 through June 30, 2024.

This has been a special year of celebration as our community college has operated continuously for 100 years! LCC may not be in existence today if it were not for the vision of Dr. Rees Hughes and his supporters. Thanks to the overwhelming support from Parsons voters on April 3rd, 1923, Parsons Junior College began in earnest five months later when classes began on Tuesday, September 12, 1923.

To commemorate the first day of classes, we started the year with a Founder's Day Celebration on September 12 and will continue to recognize the occasion annually. We then dedicated the new and improved Zetmeir Family Athletic Complex featuring both the "Modern Cardinal" which was designed by an LCC Latzer Art Award Student, Ross Benavediz and constructed by our LCC Welding students and Skip Smith's painted mural which celebrated PJC's National Basketball championship.

The Auction for Scholarships incorporated our 100th Birthday as the theme when a record \$73,000 was raised for students. LCC graduates earned 267 degrees and 85 certificates as they walked across Forest Park's stage during LCC's 100th Commencement which completed an incredible year of celebration!

LCC experienced a four percent enrollment increase from the previous year. We celebrated with our wrestling coach, Jeff Vesta, who was named the National Coach of the Year! Finally, our health science students passed their national board exams at a rate as follows: Respiratory Care 100%, Radiography 100%, Nursing 95%.

We continue to work and innovate ways to help support our students and local business and industry.

We appreciate the support from our students and local communities!

Go Cardinals!

Strategic Plan

Strategic Planning Process

Our strategic planning process is depicted below. The conceptual model provides a guide as to how LCC's five major areas (Academic Affairs, Finance & Operations, Student Affairs, Public Relations, and Foundation) satisfy our mission.

LCC's Core Values more clearly define our mission in terms of student learning, global connections, continuous improvement, integrity and transparency, and institutional sustainability. Core Values include more specific outcomes which are supported in the Operational Plans. In order to fulfill our community college mission, goals must be set and achieved. Goals are long-term in nature taking anywhere from one to five years to accomplish which fit the term length of LCC's Operational Plans. In our case, these area goals such as, Academic Affairs or Student Affairs, are linked to the Core Values.

Labette Community College

Core Values

LCC faculty, staff, and administration have attempted to demonstrate how well we have satisfied our five Core Values during the 2023-2024 Academic.

Data Generation

Data was collected and analyzed from our Operational Plans to measure how well we satisfied our Core Values. In the example below (Core Value 3, Outcome 3D, Objective 1), Academic Affairs personnel worked with Computer Support to implement a new Learning Management System (LMS) to support the changing needs of our students, additional reporting requirements of the Kansas Board of Regents, various accreditation agencies, the Federal Department of Education, etc. This was successfully completed. The level of success for the installation and implementation of the new LMS was rated a four out of a possible four.

Core Value 3: Continuous Improvement

Labette Community College strives for continual institutional improvement through strategic planning, program and department reviews, outcome assessments, professional development, performance agreements, policy and procedure updates, and campus environment enhancement.

Outcome 3D: Offer and support professional development programs and opportunities to enhance faculty and staff effectiveness as facilitators of learning and strengthen leadership skills.

Objective 1	The Academic Affairs Office seeks to implement a Learning Management System (LMS) to address the changing landscape of distance-delivered course offerings.			
Estimated Cost	Existing Money	\$	New Money One Time	\$ 30,000
	Grant Funded	\$	New Money Ongoing	\$32,000
	Department Budget	General Fund	Student Fees (New/Existing)	\$

Exp. Completion	May 2024	
Objective Relevance to Outcome (4: Extremely Relevant 1: Slightly Relevant)	Rating:	4
	Rating Rationale:	LCC offers over 35 programs of studies and certificates offered in a variety of learning modalities. These educational programs are regulated through 10 plus different accreditors to ensure governance, quality, and compliance. To meet the increased accreditation requirements, additional support is needed in to bolster institutional capacity, institutional transparency and disclosures, academic programs, support for students, program review and assessment, academic and institutional integrity.
Satisfactory level of objective completion (4: Extremely Effective 0: Not at all Effective)	Rating:	4
	Satisfactory Level Rationale:	The college completed this objective with the installation of the LMS software, Canvas. LCC personnel will monitor results but initial reports and feedback were overwhelming from students and instructors who participated in the pilot.

Core Values

Data Collection

These numbers are collected from the five areas of the college (Student Affairs, Finance and Operations, Academic Affairs, Foundation/Alumni, and Public Relations) and aggregated by Core Value. In the previous example of the Academic Affairs Objective, the chart below includes a four out of four score as part of the Core Value three aggregate for an overall level of satisfaction of 87.9%.

Core Value Level of Achievement FY2024

Operational Plans are built, then reviewed midyear, and finally evaluated at the end of the academic year. Objectives which were partially completed are either carried over to the next academic year’s plans or discontinued depending on the situation. Results are then reviewed to determine what can be done to improve our ability to satisfy our mission.

Each Core Value represents differing objectives from one year to the next. Consequently, while the Core Value name remains the same from year to year, comparing percentages from one year to the next would be measuring “apples to oranges.”
