## Comments

In order for individuals to operate specific medical imaging equipment they must be registered by the American Registry of Radiologic Technologists (ARRT) per federal regulations, therefore many medical facilities employee register medical imaging professionals. Graduates are elligible to sit for their ARRT national certification exam once they successfully earned their AAS degree from the Labette Community College Radiography program.

We highly encourage students to contact the department for additional information. For a current state by state index regarding lincensure

laws and requirements, please visit: https://www.asrt.org/main/standards-and-regulations/legislation-regulations-and-advocacy/individual-state-licensure.
