VISIT DAY INFO

Clinic

The purpose of the visit day/clinic is to give potential student-athletes, parents, and coaches a snapshot of the coaching philosophies of Coach Phillips. The clinic will provide drills, skills, and technique that will transcend into successful college wrestling at any level such as:

- 1 Strategies from neutral to score offensively and defensively
- 2 Simple concepts to escape on bottom
- 3 Flow drills on top to earn back points and falls

Campus Visit

The college visit portion will give recruits a great opportunity to start their college decision process early. Student, parents, and coaches will have the opportunity to learn important aspects of the college entrance process such as the application process, necessary documents needed, and basic knowledge of the financial aid procedures. A campus tour will be provided to emphasize the effectiveness of a small campus and it's relevance to success in the classroom.
