

## *Degree Requirements*

A student may select a concentration program under one of four Associate Degrees:

Associate in Applied Science	Associate in Arts
Associate in General Studies	Associate in Science

**The Associate in Arts (AA) and Associate in Science (AS)** are designed for students who plan to transfer to a four-year institution and pursue a baccalaureate degree. All degrees and concentrations available at LCC are described in this catalog.

**The Associate in General Studies (AGS)** degree recognizes the completion of a broad general education. Transfer students will need to complete more lower-division courses at transfer universities unless they choose their courses very carefully.

**The Associate in Applied Science (AAS)** degree is for students who plan to seek employment after completing an associate degree in a career/technical area.

The AAS degree may transfer only to specific degree programs at selected colleges and universities. Generally, this degree will only apply toward a bachelor's degree for which the purpose is technology occupations. Students should seek degree program evaluation, analysis, and advice from the institution to which they plan to transfer.

Students who have already earned a baccalaureate degree are only eligible for an AAS degree, not an AA, AS or AGS degree.

The minimum requirements are incorporated into each program in the following section of the catalog. Course substitutions must be approved by the Registrar. Developmental courses will not be counted toward fulfilling degree requirements. A minimum of 60 credit hours is required for all associate degrees, but many concentrations require more than 60 hours.

Some programs offer certificates as well as associate degrees. Certificate programs are designed to prepare students for entry into the workforce. A certificate can be earned for specific programs ranging from 16-32 credit hours as noted in this catalog and are awarded by the Registrar's Office. Students must successfully complete the certificate program with a cumulative grade point average of 2.0 or better. At least half of the credit hours required for a certificate must be completed at LCC. Students must complete a Certificate Check Request in order to be awarded a certificate. Certificates are also offered in Business and Technology and other non degree programs for less than 16 credit hours. These certificates are awarded by the department.

**Attention Transfer Students**

LCC has transfer agreements with all major Kansas universities and colleges to ensure the transferability of general education courses. Students should work with their adviser to select the appropriate type and number of general education courses required by the university or college they plan to attend.
