Board of Trustees:

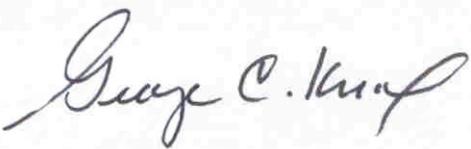

Attached you will find Labette Community College's 2014 Annual Report. The information comes from all areas of our College in an attempt to provide you with a comprehensive view of what we have accomplished over the past year. The report starts with our Strategic Planning process so you get an idea of the big picture, including the Institutional Goals and Outcomes that the Board helped us to write, our timeline that reflects our operational planning process and our 5 year visions. The last part of the process shows how the various committees' support the strategic plan.

Next, we have included our Organizational Charts to show how each area is put together, a report from each of our clubs and organizations, and a list of highlights showing how each Goal and outcome is supported by all areas of the institution. From here, we include the completed operational plans for FY2014.

Hopefully this annual comprehensive overview will serve the needs of the board. It also serves as way for us to show our transparency as required by the Higher Learning Commission. Once the annual report has been reviewed by the Board of Trustees, the information will be shared with all Labette Community College employees and adjunct instructors.

Finally, this Annual Report is a testament to the outstanding work all of our faculty, staff, and administration do every day for our students. I know you will be as pleased as I am with our results.

Sincerely,

A handwritten signature in black ink that reads "George C. Knox". The signature is written in a cursive style with a large, prominent "G" and "K".

LABETTE COMMUNITY COLLEGE STRATEGIC PLAN FY2014

VISION STATEMENT

Labette Community College will continue to enhance its standing as an exceptional College by striving for excellence in all its programs, services and activities.

MISSION STATEMENT

Labette Community College provides quality learning opportunities in a supportive environment for success in a changing world.

The vision and mission of Labette Community College reflect a set of core values shared by students, faculty, staff, administration, and Board of Trustees. These core values serve as the guiding principles of the college community as we plan for the future. The vision, mission, core values and outcomes support the Higher Learning Commission (HLC) Criteria for Accreditation, the Kansas Board of Regents (KBOR) Foresight 2020 Strategic Agenda and our current KBOR Performance Agreement.

CORE VALUES AND OUTCOMES

Core Value 1: Student Learning: Labette Community College makes every effort to provide collegial programs and services by providing a caring and qualified faculty/staff to assist all students and community members in attaining the foundational skills and knowledge essential for success in work and in life, in a supportive and accountable environment.

Outcomes

- A. Cultivate a culture in which services, practices, policies, procedures, and personnel support learning as a major priority.
- B. Strive to make the student's experiences with LCC positive, nurturing, and focuses on student learning and academic success.
- C. Make accessible a variety of services and programs that address learning needs.
- D. Use technology to expand opportunities for student learning and student services.
- E. Provide quality programs and services at the main campus, the Cherokee Center, all extension sites, and online.

Core Value 2: Education for a Globally Connected World: Labette Community College promotes the diversity in our communities and our world by valuing the dignity, worth, and potential of all persons: by using diverse delivery methods and evolving technology; and by improving the communities we serve through civic engagement opportunities.

Outcomes

- A. Improve and expand linkages with educational partners and community agencies for mutual benefit.
- B. Respond to the diverse learning needs of our community.
- C. Increase the availability of skilled workers to meet the needs of the community through community service.
- D. Offer a variety of online and on-ground courses at the main campus, the Cherokee Center and all extension sites to best meet the needs of our students.

Core Value 3: Continuous Improvement: Labette Community College strives for continual institutional improvement through strategic planning, program and department reviews, outcome assessments, professional development, performance agreements, policy and procedure updates, and campus environment enhancement.

Outcomes

- A. Improve the system of defining and assessing student learning outcomes.
- B. Hire, develop, support, and empower employees throughout the organization who take an active role in student learning and success.
- C. Offer and support professional development programs and opportunities to enhance faculty and staff effectiveness as facilitators of learning and strengthen leadership skills.
- D. Improve the utilization of human, physical, technological, and fiscal resources.

Core Value 4: Integrity and Transparency: Labette Community College operates in an environment of integrity and transparency through honest ethical practices, open communication, and accountability, for transactions with all constituencies.

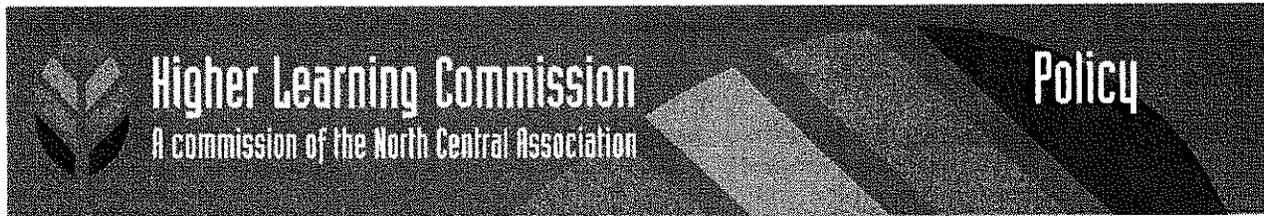

Outcomes

- A. Improve tracking of an access to date to meet the needs of the institution and external contingencies.
- B. Promote responsible stewardship of resources and public trust.
- C. Enhance the college image to stakeholders to generate business and community support by communicating the value and benefit of the college.
- D. Strengthen internal communication practices.

Core Value 5: Sustainability of the Institution: Labette Community College encourages innovation and personal growth, maintains financial accountability, supports student retention and success, and plans strategically for the future, while adhering to state, federal, and governing agency guidelines.

Outcomes

- A. Achieve targeted growth through an integrated enrollment management process.
- B. Enhance student opportunities through increased scholarships and endowments.
- C. Enhance the economic, academic, and social environment of the college to recruit and retain quality employees.

Policy Title: Criteria for Accreditation

Number: CRRT.B.10.010

The Criteria for Accreditation are the standards of quality by which the Commission determines whether an institution merits accreditation or reaffirmation of accreditation. They are as follows:

Criterion One. Mission

The institution's mission is clear and articulated publicly; it guides the institution's operations.

Core Components

- 1.A. The institution's mission is broadly understood within the institution and guides its operations.
 - 1. The mission statement is developed through a process suited to the nature and culture of the institution and is adopted by the governing board.
 - 2. The institution's academic programs, student support services, and enrollment profile are consistent with its stated mission.
 - 3. The institution's planning and budgeting priorities align with and support the mission. (This sub-component may be addressed by reference to the response to Criterion 5.C.1.)

- 1.B. The mission is articulated publicly.
 - 1. The institution clearly articulates its mission through one or more public documents, such as statements of purpose, vision, values, goals, plans, or institutional priorities.
 - 2. The mission document or documents are current and explain the extent of the institution's emphasis on the various aspects of its mission, such as instruction, scholarship, research, application of research, creative works, clinical service, public service, economic development, and religious or cultural purpose.
 - 3. The mission document or documents identify the nature, scope, and intended constituents of the higher education programs and services the institution provides.

- 1.C. The institution understands the relationship between its mission and the diversity of society.
 - 1. The institution addresses its role in a multicultural society.
 - 2. The institution's processes and activities reflect attention to human diversity as appropriate within its mission and for the constituencies it serves.

- 1.D. The institution's mission demonstrates commitment to the public good.
 - 1. Actions and decisions reflect an understanding that in its educational role the institution serves the public, not solely the institution, and thus entails a public obligation.
 - 2. The institution's educational responsibilities take primacy over other purposes, such as generating financial returns for investors, contributing to a related or parent organization, or supporting external interests.
 - 3. The institution engages with its identified external constituencies and communities of interest and responds to their needs as its mission and capacity allow.

Criterion Two. Integrity: Ethical and Responsible Conduct

The institution acts with integrity; its conduct is ethical and responsible.

Core Components

- 2.A. The institution operates with integrity in its financial, academic, personnel, and auxiliary functions; it establishes and follows policies and processes for fair and ethical behavior on the part of its governing board, administration, faculty, and staff.
- 2.B. The institution presents itself clearly and completely to its students and to the public with regard to its programs, requirements, faculty and staff, costs to students, control, and accreditation relationships.
- 2.C. The governing board of the institution is sufficiently autonomous to make decisions in the best interest of the institution and to assure its integrity.
 - 1. The governing board's deliberations reflect priorities to preserve and enhance the institution.
 - 2. The governing board reviews and considers the reasonable and relevant interests of the institution's internal and external constituencies during its decision-making deliberations.
 - 3. The governing board preserves its independence from undue influence on the part of donors, elected officials, ownership interests, or other external parties when such influence would not be in the best interest of the institution.
 - 4. The governing board delegates day-to-day management of the institution to the administration and expects the faculty to oversee academic matters.
- 2.D. The institution is committed to freedom of expression and the pursuit of truth in teaching and learning.
- 2.E. The institution's policies and procedures call for responsible acquisition, discovery and application of knowledge by its faculty, students and staff.
 - 1. The institution provides effective oversight and support services to ensure the integrity of research and scholarly practice conducted by its faculty, staff, and students.
 - 2. Students are offered guidance in the ethical use of information resources.
 - 3. The institution has and enforces policies on academic honesty and integrity.

Criterion Three. Teaching and Learning: Quality, Resources, and Support

The institution provides high quality education, wherever and however its offerings are delivered.

Core Components

- 3.A. The institution's degree programs are appropriate to higher education.
 - 1. Courses and programs are current and require levels of performance by students appropriate to the degree or certificate awarded.
 - 2. The institution articulates and differentiates learning goals for its undergraduate, graduate, post-baccalaureate, post-graduate, and certificate programs.
 - 3. The institution's program quality and learning goals are consistent across all modes of delivery and all locations (on the main campus, at additional locations, by distance delivery, as dual credit, through contractual or consortial arrangements, or any other modality).
- 3.B. The institution demonstrates that the exercise of intellectual inquiry and the acquisition, application, and integration of broad learning and skills are integral to its educational programs.
 - 1. The general education program is appropriate to the mission, educational offerings, and degree levels of the institution.
 - 2. The institution articulates the purposes, content, and intended learning outcomes of its undergraduate general education requirements. The program of general education is grounded in a philosophy or framework developed by the institution or adopted from an established framework. It imparts broad knowledge and intellectual concepts to students and develops skills and attitudes that the institution believes every college-educated person should possess.

3. Every degree program offered by the institution engages students in collecting, analyzing, and communicating information; in mastering modes of inquiry or creative work; and in developing skills adaptable to changing environments.
 4. The education offered by the institution recognizes the human and cultural diversity of the world in which students live and work.
 5. The faculty and students contribute to scholarship, creative work, and the discovery of knowledge to the extent appropriate to their programs and the institution's mission.
- 3.C. The institution has the faculty and staff needed for effective, high-quality programs and student services.
1. The institution has sufficient numbers and continuity of faculty members to carry out both the classroom and the non-classroom roles of faculty, including oversight of the curriculum and expectations for student performance; establishment of academic credentials for instructional staff; involvement in assessment of student learning.
 2. All instructors are appropriately qualified, including those in dual credit, contractual, and consortial programs.
 3. Instructors are evaluated regularly in accordance with established institutional policies and procedures.
 4. The institution has processes and resources for assuring that instructors are current in their disciplines and adept in their teaching roles; it supports their professional development.
 5. Instructors are accessible for student inquiry.
 6. Staff members providing student support services, such as tutoring, financial aid advising, academic advising, and co-curricular activities, are appropriately qualified, trained, and supported in their professional development.
- 3.D. The institution provides support for student learning and effective teaching.
1. The institution provides student support services suited to the needs of its student populations.
 2. The institution provides for learning support and preparatory instruction to address the academic needs of its students. It has a process for directing entering students to courses and programs for which the students are adequately prepared.
 3. The institution provides academic advising suited to its programs and the needs of its students.
 4. The institution provides to students and instructors the infrastructure and resources necessary to support effective teaching and learning (technological infrastructure, scientific laboratories, libraries, performance spaces, clinical practice sites, museum collections, as appropriate to the institution's offerings).
 5. The institution provides to students guidance in the effective use of research and information resources.
- 3.E. The institution fulfills the claims it makes for an enriched educational environment.
1. Co-curricular programs are suited to the institution's mission and contribute to the educational experience of its students.
 2. The institution demonstrates any claims it makes about contributions to its students' educational experience by virtue of aspects of its mission, such as research, community engagement, service learning, religious or spiritual purpose, and economic development.

Criterion Four. Teaching and Learning: Evaluation and Improvement

The institution demonstrates responsibility for the quality of its educational programs, learning environments, and support services, and it evaluates their effectiveness for student learning through processes designed to promote continuous improvement.

Core Components

- 4.A. The institution demonstrates responsibility for the quality of its educational programs.

1. The institution maintains a practice of regular program reviews.
 2. The institution evaluates all the credit that it transcripts, including what it awards for experiential learning or other forms of prior learning, or relies on the evaluation of responsible third parties.
 3. The institution has policies that assure the quality of the credit it accepts in transfer.
 4. The institution maintains and exercises authority over the prerequisites for courses, rigor of courses, expectations for student learning, access to learning resources, and faculty qualifications for all its programs, including dual credit programs. It assures that its dual credit courses or programs for high school students are equivalent in learning outcomes and levels of achievement to its higher education curriculum.
 5. The institution maintains specialized accreditation for its programs as appropriate to its educational purposes.
 6. The institution evaluates the success of its graduates. The institution assures that the degree or certificate programs it represents as preparation for advanced study or employment accomplish these purposes. For all programs, the institution looks to indicators it deems appropriate to its mission, such as employment rates, admission rates to advanced degree programs, and participation rates in fellowships, internships, and special programs (e.g., Peace Corps and Americorps).
- 4.B. The institution demonstrates a commitment to educational achievement and improvement through ongoing assessment of student learning.
1. The institution has clearly stated goals for student learning and effective processes for assessment of student learning and achievement of learning goals.
 2. The institution assesses achievement of the learning outcomes that it claims for its curricular and co-curricular programs.
 3. The institution uses the information gained from assessment to improve student learning.
 4. The institution's processes and methodologies to assess student learning reflect good practice, including the substantial participation of faculty and other instructional staff members.
- 4.C. The institution demonstrates a commitment to educational improvement through ongoing attention to retention, persistence, and completion rates in its degree and certificate programs.
1. The institution has defined goals for student retention, persistence, and completion that are ambitious but attainable and appropriate to its mission, student populations, and educational offerings.
 2. The institution collects and analyzes information on student retention, persistence, and completion of its programs.
 3. The institution uses information on student retention, persistence, and completion of programs to make improvements as warranted by the data.
 4. The institution's processes and methodologies for collecting and analyzing information on student retention, persistence, and completion of programs reflect good practice. (Institutions are not required to use IPEDS definitions in their determination of persistence or completion rates. Institutions are encouraged to choose measures that are suitable to their student populations, but institutions are accountable for the validity of their measures.)

Criterion Five. Resources, Planning, and Institutional Effectiveness

The institution's resources, structures, and processes are sufficient to fulfill its mission, improve the quality of its educational offerings, and respond to future challenges and opportunities. The institution plans for the future.

Core Components

- 5.A. The institution's resource base supports its current educational programs and its plans for maintaining and strengthening their quality in the future.
1. The institution has the fiscal and human resources and physical and technological infrastructure sufficient to support its operations wherever and however programs are delivered.

2. The institution's resource allocation process ensures that its educational purposes are not adversely affected by elective resource allocations to other areas or disbursement of revenue to a superordinate entity.
 3. The goals incorporated into mission statements or elaborations of mission statements are realistic in light of the institution's organization, resources, and opportunities.
 4. The institution's staff in all areas are appropriately qualified and trained.
 5. The institution has a well-developed process in place for budgeting and for monitoring expense.
- 5.B. The institution's governance and administrative structures promote effective leadership and support collaborative processes that enable the institution to fulfill its mission.
1. The governing board is knowledgeable about the institution; it provides oversight of the institution's financial and academic policies and practices and meets its legal and fiduciary responsibilities.
 2. The institution has and employs policies and procedures to engage its internal constituencies—including its governing board, administration, faculty, staff, and students—in the institution's governance.
 3. Administration, faculty, staff, and students are involved in setting academic requirements, policy, and processes through effective structures for contribution and collaborative effort.
- 5.C. The institution engages in systematic and integrated planning.
1. The institution allocates its resources in alignment with its mission and priorities.
 2. The institution links its processes for assessment of student learning, evaluation of operations, planning, and budgeting.
 3. The planning process encompasses the institution as a whole and considers the perspectives of internal and external constituent groups.
 4. The institution plans on the basis of a sound understanding of its current capacity. Institutional plans anticipate the possible impact of fluctuations in the institution's sources of revenue, such as enrollment, the economy, and state support.
 5. Institutional planning anticipates emerging factors, such as technology, demographic shifts, and globalization.
- 5.D. The institution works systematically to improve its performance.
1. The institution develops and documents evidence of performance in its operations.
 2. The institution learns from its operational experience and applies that learning to improve its institutional effectiveness, capabilities, and sustainability, overall and in its component parts.

The Criteria for Accreditation: Guiding Values

The Higher Learning Commission's Criteria for Accreditation reflect a set of guiding values. The Commission articulates these guiding values so as to offer a better understanding of the Criteria and the intentions that underlie them.

The responsibility for assuring the quality of an institution rests first with the institution itself. Institutional accreditation assesses the capacity of an institution to assure its own quality and expects it to produce evidence that it does so.

Many of the Higher Learning Commission's Criteria for Accreditation should be understood in this light. The Commission expects the governing board to ensure quality through its governance structures, with appropriate degrees of involvement and delegation. The Commission emphasizes planning because planning is critical to sustaining quality. Assessment of student learning and focus on persistence and completion are ways in which the institution improves and thus assures the quality of its teaching and learning.

The Commission expects that institutions have the standards, the processes, and the will for quality assurance in depth and throughout its educational offerings.

1. Focus on student learning

For the purpose of accreditation, the Higher Learning Commission regards the teaching mission of any institution as primary. Institutions will have other missions, such as research, healthcare, and public service, and these other missions may have a shaping and highly valuable effect on the education that the institution provides. In the accreditation process, these missions should be recognized and considered in relation to the teaching mission.

A focus on student learning encompasses every aspect of students' experience at an institution: how they are recruited and admitted; costs they are charged and how they are supported by financial aid; how well they are informed and guided before and through their work at the institution; the breadth, depth, currency, and relevance of

the learning they are offered; their education through co-curricular offerings; the effectiveness of their programs; what happens to them after they leave the institution.

2. Education as a public purpose

Every educational institution serves a public purpose. Public or state-supported institutions make that assumption readily. Not-for-profit institutions receive their tax-exempt status on the basis of an assumption that they serve a public purpose. And although it may appear that a for-profit institution does not require a public purpose, because education is a public good its provision serves a public purpose and entails societal obligations. Furthermore, the provision of higher education requires a more complex standard of care than, for instance, the provision of dry cleaning services. What the students buy, with money, time, and effort, is not merely a good, like a credential, but experiences that have the potential to transform lives, or to harm them. What institutions do constitutes a solemn responsibility for which they should hold themselves accountable.

3. Education for a diverse, technological, globally connected world

A contemporary education must recognize contemporary circumstances: the diversity of U.S. society, the diversity of the world in which students live, and the centrality of technology and the global dynamic to life in the 21st century. More than ever, students should be prepared for lifelong learning and for the likelihood that no job or occupation will last a lifetime. Even for the most technical qualification, students need the civic learning and broader intellectual capabilities that underlie success in the workforce. The Commission distinguishes higher education in part on the basis of its reach beyond narrow vocational training to a broader intellectual and social context.

4. A culture of continuous improvement

Continuous improvement is the alternative to stagnation. Minimum standards are necessary but far from sufficient to achieve acceptable quality in higher education, and the strongest institutions will stay strong through ongoing aspiration. The Commission includes improvement as one of two major strands in all its pathways, the other being assurance that member institutions meet the Criteria and the Federal Requirements.

A process of assessment is essential to continuous improvement and therefore a commitment to assessment should be deeply embedded in an institution's activities. Assessment applies not only to student learning and educational outcomes but to an institution's approach to improvement of institutional effectiveness.

For student learning, a commitment to assessment would mean assessment at the program level that proceeds from clear goals, involves faculty at all points in the process, and analyzes the assessment results; it would also mean that the institution improves its programs or ancillary services or other operations on the basis of those analyses. Institutions committed to improvement review their programs regularly and seek external judgment, advice, or benchmarks in their assessments. Because in recent years the issues of persistence and completion have become central to public concern about higher education, the current Criteria direct attention to them as possible indicators of quality and foci for improvement, without prescribing either the measures or outcomes.

Innovation is an aspect of improvement and essential in a time of rapid change and challenge; through its Criteria and processes the Commission seeks to support innovation for improvement in all facets of institutional practice.

5. Evidence-based institutional learning and self-presentation

Assessment and the processes an institution learns from should be well-grounded in evidence. Statements of belief and intention have important roles in an institution's presentation of itself, but for the quality assurance function of accreditation, evidence is critical. Institutions should be able to select evidence based on their particular purposes and circumstances. At the same-time, many of the Assumed Practices within the Criteria require certain specified evidence.

6. Integrity, transparency, and ethical behavior or practice

The Commission understands integrity broadly, including wholeness and coherence at one end of the spectrum and ethical behavior at the other. Integrity means doing what the mission calls for and not doing what it does not call for; governance systems that are freely, independently, and rigorously focused on the welfare of the institution and

its students; scrupulous avoidance of misleading statements or practices; full disclosure of information to students before students make any commitment to the institution, even a commitment to receive more information; clear, explicit requirements for ethical practice by all members of the institutional community in all its activities.

7. Governance for the well-being of the institution

The well-being of an institution requires that its governing board place that well-being above the interests of its own members and the interests of any other entity. Because the Commission accredits the educational institution itself, and not the state system, religious organization, corporation, medical center, or other entity that may own it, it holds the governing board of an institution accountable for the key aspects of the institution's operations. The governing board must have the independent authority for such accountability and must also hold itself independent of undue influence from individuals, be they donors, elected officials, supporters of athletics, shareholders, or others with personal or political interests.

Governance of a quality institution of higher education will include a significant role for faculty, in particular with regard to currency and sufficiency of the curriculum, expectations for student performance, qualifications of the instructional staff, and adequacy of resources for instructional support.

8. Planning and management of resources to ensure institutional sustainability

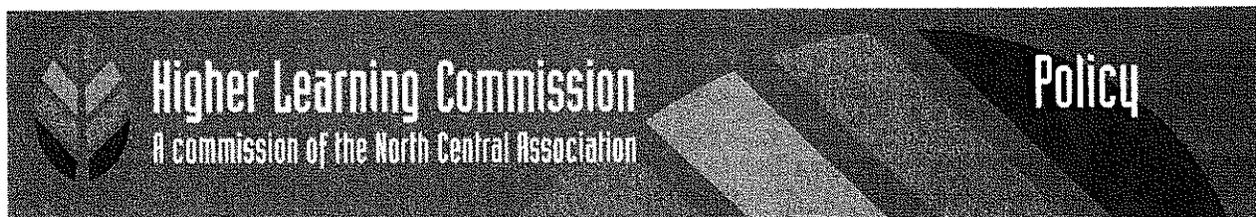

The Commission does not privilege wealth. Students do expect, however, that an institution will be in operation for the duration of their degree programs. Therefore, the Commission is obliged to seek information regarding an institution's sustainability and, to that end, wise management of its resources. The Commission also watches for signs that an institution's financial challenges are eroding the quality of its programs to the point of endangering the institution's ability to meet the Criteria for Accreditation. Careful mid- and long-range planning must undergird an institution's budgetary and financial decisions.

9. Mission-centered evaluation

The Commission understands and values deeply the diversity of its institutions, which begins from the diversity of their missions. Accordingly, mission in some degree governs each of the Criteria. The Commission holds many expectations for all institutions regardless of mission, but it expects that differences in mission will shape wide differences in how the expectations are addressed and met.

10. Accreditation through peer review

Peer review is the defining characteristic of accreditation and essential for a judgment-based process in a highly complex field. But self-regulation can be met with public skepticism. Therefore, peer review for accreditation must: (1) be collegial, in the sense of absolute openness in the relationship between an institution and the peer reviewers assigned to it as well as between the institution and the Commission; (2) be firm in maintaining high standards, not mistaking leniency for kindness or inclusiveness; and (3) be cognizant of the dual role of peer reviewers in both assuring and advancing institutional quality.

Policy Title: Assumed Practices
Number: CRRT.B.10.020

Foundational to the Criteria and Core Components is a set of practices shared by institutions of higher education in the United States. Unlike Criteria and Core Components, these Assumed Practices are (1) generally matters to be determined as facts, rather than matters requiring professional judgment and (2) unlikely to vary by institutional mission or context.

A. Integrity: Ethical and Responsible Conduct

1. The institution has a conflict of interest policy that ensures that the governing board and the senior administrative personnel act in the best interest of the institution.
2. The institution has ethics policies for faculty and staff regarding conflict of interest, nepotism, recruitment and admissions, financial aid, privacy of personal information, and contracting.
3. The institution provides its students, administrators, faculty, and staff with policies and procedures informing them of their rights and responsibilities within the institution.
4. The institution provides clear information regarding its procedures for receiving complaints and grievances from students and other constituencies, responds to them in a timely manner, and analyzes them to improve its processes.
5. The institution makes readily available to students and to the general public clear and complete information including:
 - a. statements of mission, vision, and values
 - b. full descriptions of the requirements for its programs, including all pre-requisite courses
 - c. requirements for admission both to the institution and to particular programs or majors
 - d. policies on acceptance of transfer credit, including how credit is applied to degree requirements. (Except for courses articulated through transfer policies or institutional agreements, the institution makes no promises to prospective students regarding the acceptance of credit awarded by examination, credit for prior learning, or credit for transfer until an evaluation has been conducted.)
 - e. all student costs, including tuition, fees, training, and incidentals; its financial aid policies, practices, and requirements; and its policy on refunds
 - f. policies regarding academic good standing, probation, and dismissal; residency or enrollment requirements (if any)
 - g. a full list of its instructors and their academic credentials
 - h. its relationship with any parent organization (corporation, hospital, or church, or other entity that owns the institution) and any external providers of its instruction.
6. The institution assures that all data it makes public are accurate and complete, including those reporting on student achievement of learning and student persistence, retention, and completion.
7. The institution portrays clearly and accurately to the public its current status with the Higher Learning Commission and with specialized, national, and professional accreditation agencies.
 - a. An institution offering programs that require specialized accreditation or recognition by a state

- licensing board or other entity in order for its students to be certified or to sit for the licensing examination in states where its students reside either has the appropriate accreditation and recognition or discloses publicly and clearly the consequences to the students of the lack thereof. The institution makes clear to students the distinction between regional and specialized or program accreditation and the relationships between licensure and the various types of accreditation.
- b. An institution offering programs eligible for specialized accreditation at multiple locations discloses the accreditation status and recognition of the program by state licensing boards at each location.
 - c. An institution that provides a program that prepares students for a licensure, certification, or other qualifying examination publicly discloses its pass rate on that examination, unless such information is not available to the institution.
8. The governing board and its executive committee, if it has one, include some “public” members. Public members have no significant administrative position or any ownership interest in any of the following: the institution itself; a company that does substantial business with the institution; a company or organization with which the institution has a substantial partnership; a parent, ultimate parent, affiliate, or subsidiary corporation; an investment group or firm substantially involved with one of the above organizations. All publicly-elected members or members appointed by publicly-elected individuals or bodies (governors, elected legislative bodies) are public members.¹
 9. The governing board has the authority to approve the annual budget and to engage and dismiss the chief executive officer.
 10. The institution documents outsourcing of all services in written agreements, including agreements with parent or affiliated organizations.
 11. The institution takes responsibility for the ethical and responsible behavior of its contractual partners in relation to actions taken on its behalf.

¹ *Institutions operating under federal control and authorized by Congress are exempt from these requirements. These institutions must have a public board that includes representation by individuals who do not have a current or previous employment or other relationship with the federal government or any military entity. This public board has a significant role in setting policy, reviewing the institution’s finances, reviewing and approving major institutional priorities, and overseeing the academic programs of the institution.*

B. Teaching and Learning: Quality, Resources, and Support

1. Programs, Courses, and Credits
 - a. The institution conforms to commonly accepted minimum program length: 60 semester credits for associate’s degrees, 120 semester credits for bachelor’s degrees, and 30 semester credits beyond the bachelor’s for master’s degrees. Any variation from these minima must be explained and justified.
 - b. The institution maintains structures or practices that ensure the coherence and quality of the programs for which it awards a degree. Typically institutions will require that at minimum 30 of the 120 credits earned for the bachelor’s degree and 15 of the 60 credits for the associate’s degree be credits earned at the institution itself, through arrangements with other accredited institutions, or through contractual relationships approved by the Commission. Any variation from the typical minima must be explained and justified.
 - c. The institution’s policy and practice assure that at least 50% of courses applied to a graduate program are courses designed for graduate work, rather than undergraduate courses credited toward a graduate degree. (Cf. Criterion 3.A.1 and 2.) (An institution may allow well-prepared advanced students to substitute its graduate courses for required or elective courses in an undergraduate degree program and then subsequently count those same courses as fulfilling graduate requirements

- in a related graduate program that the institution offers. In “4+1” or “2+3” programs, at least 50% of the credits allocated for the master’s degree – usually 15 of 30 – must be for courses designed for graduate work.)
- d. The institution adheres to policies on student academic load per term that reflect reasonable expectations for successful learning and course completion.
 - e. Courses that carry academic credit toward college-level credentials have content and rigor appropriate to higher education.
 - f. The institution has a process for ensuring that all courses transferred and applied toward degree requirements demonstrate equivalence with its own courses required for that degree or are of equivalent rigor.
 - g. The institution has a clear policy on the maximum allowable credit for prior learning as a reasonable proportion of the credits required to complete the student’s program. Credit awarded for prior learning is documented, evaluated, and appropriate for the level of degree awarded. (Note that this requirement does not apply to courses transferred from other institutions.)
 - h. The institution maintains a minimum requirement for general education for all of its undergraduate programs whether through a traditional practice of distributed curricula (15 semester credits for AAS degrees, 24 for AS or AA degrees, and 30 for bachelor’s degrees) or through integrated, embedded, interdisciplinary, or other accepted models that demonstrate a minimum requirement equivalent to the distributed model. Any variation is explained and justified.
2. Faculty Roles and Qualifications
 - a. Instructors (excluding for this requirement teaching assistants enrolled in a graduate program and supervised by faculty) possess an academic degree relevant to what they are teaching and at least one level above the level at which they teach, except in programs for terminal degrees or when equivalent experience is established. In terminal degree programs, faculty members possess the same level of degree. When faculty members are employed based on equivalent experience, the institution defines a minimum threshold of experience and an evaluation process that is used in the appointment process.
 - b. Instructors teaching at the doctoral level have a record of recognized scholarship, creative endeavor, or achievement in practice commensurate with doctoral expectations.
 - c. Faculty participate substantially in:
 - a. oversight of the curriculum—its development and implementation, academic substance, currency, and relevance for internal and external constituencies;
 - b. assurance of consistency in the level and quality of instruction and in the expectations of student performance;
 - c. establishment of the academic qualifications for instructional personnel;
 - d. analysis of data and appropriate action on assessment of student learning and program completion.
 3. Support Services
 - a. Financial aid advising clearly and comprehensively reviews students’ eligibility for financial assistance and assists students in a full understanding of their debt and its consequences.
 - b. The institution maintains timely and accurate transcript and records services.

C. Teaching and Learning: Evaluation and Improvement

1. Instructors (excluding for this requirement teaching assistants enrolled in a graduate program and supervised by faculty) have the authority for the assignment of grades. (This requirement allows for collective responsibility, as when a faculty committee has the authority to override a grade on appeal.)

2. The institution refrains from the transcription of credit from other institutions or providers that it will not apply to its own programs.
3. The institution has formal and current written agreements for managing any internships and clinical placements included in its programs.
4. A predominantly or solely single-purpose institution in fields that require licensure for practice is also accredited by or is actively in the process of applying to a recognized specialized accrediting agency for each field, if such agency exists.
5. Instructors communicate course requirements to students in writing and in a timely manner.
6. Institutional data on assessment of student learning are accurate and address the full range of students who enroll.
7. Institutional data on student retention, persistence, and completion are accurate and address the full range of students who enroll.

D. Resources, Planning, and Institutional Effectiveness

1. The institution is able to meet its current financial obligations.
2. The institution has a prepared budget for the current year and the capacity to compare it with budgets and actual results of previous years.
3. The institution has future financial projections addressing its long-term financial sustainability.
4. The institution maintains effective systems for collecting, analyzing, and using institutional information.
5. The institution undergoes an external audit by a certified public accountant or a public audit agency that reports financial statements on the institution separately from any other related entity or parent corporation. For private institutions the audit is annual; for public institutions it is at least every two years.²
6. The institution's administrative structure includes a chief executive officer, chief financial officer, and chief academic officer (titles may vary) with appropriate credentials and experience and sufficient focus on the institution to ensure appropriate leadership and oversight. (An institution may outsource its financial functions but must have the capacity to assure the effectiveness of that arrangement.)

²*Institutions under federal control are exempted provided that they have other reliable information to document the institution's fiscal resources and management.*

Policy Title: Obligations of Affiliation
Number: INST.B.30.020

While seeking and holding affiliation with the Commission, an institution voluntarily agrees to meet obligations set forth by the Commission as follows:

1. The institution participates in periodic evaluation through the structures and mechanisms set forth in Commission policies, submission of reports as requested by the Commission, filing of the Institutional Update, and any other requirements set forth in its policies.
2. The institution is candid, transparent, and forthcoming in its dealings with the Commission, including in its responses to any special inquiries or requests for information from the Commission. The institution agrees not to enter into any agreement that limits the nature or scope of its communications with the Commission or requires that a third party review and approve those communications prior to their transmission to the Commission.
3. The institution notifies the Commission of any condition or situation that has the potential to affect the institution's status with the Commission, such as a significant unanticipated reduction in program offerings or serious legal investigation. (A fuller list of such conditions or situations is included in the Commission's policy on special monitoring.)
4. The institution informs the Commission of its relationship with any related entity wherein institutional decision-making is controlled by that entity and of any changes in that relationship that may affect the institution's compliance with Commission accreditation requirements. (Definitions and process requirements are contained in the Commission's policy on institutions with related entities.)
5. The institution describes itself in identical terms to the Commission and to any other institutional accrediting body with which it holds or seeks affiliation with regard to purpose, governance, programs, locations, degrees, diplomas, certificates, personnel, finances, and constituents.
6. The institution notifies the Commission when it receives an adverse action from or has been placed on sanction by any other accrediting agency or if a state has issued a pending or final action that affects the institution's legal status or authority to grant degrees.
7. The institution assures its employees and students that it will consider fairly all complaints and third-party comments and not engage in retaliatory action against any who have submitted such information.
8. The institution accepts that the Commission will, in the interest of transparency to the public, publish outcomes from its accreditation process.
9. The institution portrays its accreditation status with the Commission clearly to the public, including the status of its branch campuses and related entities. The institution posts the electronic version of the Commission's Mark of Affiliation in at least one place on its Web site, linking users directly to the institution's status on the Commission's Web site.
10. The institution communicates to its constituencies and applicants any Public Disclosure Notice it receives from the Higher Learning Commission.
11. The institution maintains prominently on its Web site a telephone number that includes an option for both current students and the public to speak with a representative of the institution.
12. The institution submits timely payment of dues and fees and accepts the fact of surcharges for late payment.
13. The institution agrees to accept binding arbitration in the event of an action by the Commission's Board of Trustees that the institution disputes and is not able to resolve through the Commission's processes. This agreement follows procedures developed and published by the Commission. The institution also agrees to grant immunity to the Commission from claims of civil liability related to judgments made by the

Commission or its agents in the course of its work of accrediting institutions provided that it was acting in good faith and within the scope of its responsibilities.

Meeting Obligations of Affiliation

Institutions must remain in compliance with the Obligations of Affiliation at all times. The Commission shall determine when an institution is in violation of the Obligations of Affiliation. Commission staff, may at its discretion, make use of any means to determine whether the institution has violated an Obligation of Affiliation including, but not limited to, seeking written information from the institution or scheduling a peer reviewer or staff member to meet with one or more institutional representatives either on-campus or through other appropriate method.

Administrative Probation

An institution that is determined by Commission staff or peer reviewers to have not met the Obligations of Affiliation shall be placed on Administrative Probation by the Commission's President for a period not to exceed ninety days. During this time the institution will be expected to remedy the situation that led to the imposition of Administrative Probation. The Commission President will notify the institution of the imposition of the Administrative Probation and the conditions for its removal.

If an institution fails to remedy the situation that led to Administrative Probation by the end of the ninety-day period, the Commission President shall take a recommendation concerning the institution to the Commission's Board of Trustees. That recommendation may be for the application of a sanction or the withdrawal of accreditation, in accordance with Commission policies and procedures.

Disclosure of Administrative Probation

Administrative probation is noted on an institution's Statement of Affiliation Status along with the reason for the Administrative Probation.

FORESIGHT 2020

A 10-Year Strategic Agenda for the State's Public Higher Education System

Foresight 2020 is a 10-year strategic agenda for the state's public higher education system. Originally adopted by the Kansas Board of Regents in 2010 and updated in 2012, the plan sets long-range achievement goals that are measurable, reportable, and ensure the state's higher education system meets Kansans' expectations. Find the full 2014 report and more at: kansasregents.org/foresight_2020.

INCREASE HIGHER EDUCATION ATTAINMENT

Aspirations

- ★ Increase to 60 percent the number of Kansas adults who have a certificate, associate degree, or bachelor's degree by 2020.
- ★ Achieve a ten percentage point increase in retention and graduation rates by 2020.

Measures

- ★ Comparison of state demographics with higher education participation levels, including underrepresented groups
- ★ Review of higher education participation levels by age groups, including traditional students (18-24), adults between the ages of 25-34, 35-44, and 45-64
- ★ Comparison of Kansas's postsecondary attainment to the nation by age groups
- ★ Overall number of Adult Basic Education (ABE) participants
- ★ Percentage of ABE participants in postsecondary education
- ★ First to second year retention rates at universities, community colleges and technical colleges
- ★ Three-year graduation rates for community and technical colleges
- ★ Six-year graduation rates for universities
- ★ Student Success Index
- ★ Number of certificates and degrees awarded by universities, community colleges and technical colleges
- ★ Number of adults with college credit but no certificate or degree who are returning to complete a certificate/credential, associate or bachelor degree

IMPROVE ECONOMIC ALIGNMENT

Aspirations

- ★ Respond to business and industry expectations for graduates and ensure all technical programs meet expectations of quality.
- ★ Reduce workforce shortages in selected high demand fields by increasing the number of credentials and degrees awarded, including in STEM fields.
- ★ Enhance understanding of the role of university research in supporting the economy.

Measures

- ★ Performance of students on institutional assessments in three areas:
 1. Mathematics/Analytical Reasoning
 2. Written and Oral Communication
 3. Critical Thinking/Problem Solving
- ★ Performance of students on selected third-party technical program certificate/credential assessments
- ★ Percent of graduates employed in Kansas
- ★ Average wages earned by graduates
- ★ Improvement in quality measures on technical program outcome metrics
- ★ Number of certificates and degrees awarded in selected high-demand occupations
- ★ Percent of certificates/degrees awarded in STEM fields

ENSURE STATE UNIVERSITY EXCELLENCE

Aspiration

- ★ Improve regional and national reputations of state universities.

Measures

- ★ Improved institutional performance on quality measures compared to peers, including on select regional and national rankings
- ★ Increase in proportion of federal research dollars awarded
- ★ Increase in private giving to universities

Labette Community College Performance Report 2013

Second year report for 2013-14 performance agreement

GOAL: Achieve measurable improvement in persistence (retention) and completion (graduation) rates for higher education across the state.

Indicator 1: Increase the percentage of fall-to-fall retention rates of first-time, full-time degree seeking students.

During the spring 2013 semester, Labette Community College administered the Noel-Levitz Student Satisfaction Inventory rather than the "in house" inventory we had used the previous two years. From this data we have made changes to some financial aid processes. Students now have access to their financial aid statements online, along with information regarding what paperwork is needed from them to complete their file. This year, the first disbursement date was a week earlier than in the past years to coincide with the change we made allowing one week for students to add and drop courses, compared to the two weeks we previously allowed. The financial aid specialists were also cross-trained to allow for faster processing of paperwork. The Admissions Department increased communication with all enrolled students, providing them with monthly emails about current activities, upcoming deadlines, and general information. The College Success Skills class that was extended to a semester long course in 2012 increased the class meeting times to twice each week for the first half of the semester to increase contact with first time students. All of these efforts were made to increase the retention rates of degree seeking students, both full-time and part-time. Our actual percentage of 48% was higher than our target of 47%. However, since this report is based on whether or not our numbers increased or decreased from one year to the next, our increase was less than the previous year's increase.

Indicator 2: Increase the percentage of fall-to-fall retention rates of first time, part-time degree seeking students

The narrative for indicator 1 also applies here. We did not demonstrate directional improvement in this indicator.

Indicator 3: Increase the percentage of full-time degree seeking student graduation rates.

The graduation rate increased due to a number of factors. We increased the number of contacts made with students who had completed at least 42 credit hours. The Curriculum and Instruction Committee provided additional flexibility in the Liberal Studies degree to allow more courses for graduation credit. The Admissions Department's monthly emails to current students provided information regarding the graduation process. The Dean of Enrollment Management worked with the Health Science Directors to have the students in these programs complete the Degree Check process in-class, rather than the students doing it individually on their own time. Each faculty member was aware of the effort to improve our graduation rates and took time with their advisees to ensure proper steps were being followed.

GOAL: Ensure that students earning credentials and degrees across the higher education system possess the foundational skills essential for success in work and in life.

Indicators 1-4: Increase student scores on Writing Matrix for Style, Structure, Audience, and Content.

Writing is part of our Communication Outcome, which is one of our four overall Student Learning Outcomes. In calendar year 2013 we used our Writing Matrix to gather and score a total of 4,459 student writing samples from 423 classes. Student scores were based on a common writing rubric developed by our faculty. Each writing category received a rating by the classroom instructor. Using a Likert Scale, an "Exemplary" rating was represented with a score of 4. A "Satisfactory" rating received a score of 3. A "Needs Improvement" rating received a score of 2, and an "Insufficient" received a score of 1. Scores that were 3 or 4 were deemed successful. It was possible for a student to have taken a writing assessment in more than one course; therefore, a particular student may have received several scores in the final tally. Consequently, student descriptors are not included. To calculate the mean scores used for these indicators, all scores in a particular category were summed and divided by the score sample (n). For example, the sum of the Writing Style category was 12,905. The sample

size was 4,459. Therefore $12,905$ divided by $4,459$ = a mean score of 2.89 for Writing Style, which is higher than our mean score of 2.80 in 2012. The sum of the Writing Structure category was $13,372$. The sample size was $4,459$. Therefore, $13,372$ divided by $4,459$ = 3.00 which is higher than our mean score of 2.93 in 2012. The sum of the Writing Audience category was $13,600$. The sample size was $4,459$. Therefore, $13,600$ divided by $4,459$ = 3.05 , which is higher than our mean score of 2.97 in 2012. Finally, the sum of our Writing Content category was $13,948$. The sample size was $4,459$. Therefore, $13,948$ divided by $4,459$ = 3.13 , which is higher than our mean score of 3.04 in 2012.

Even though this report concludes our current Performance Agreement, we will continue to demonstrate the importance of writing at LCC for the next 3 years in our upcoming Performance Agreement. However, instead of using our own faculty developed rubric to measure success, we will strive to increase the % of students scoring at or above the national mean who take the Collegiate Assessment of Academic Proficiency (CAAP) Writing Exams.

GOAL: Enhance alignment between the work of the state's higher education system and the needs of the Kansas economy.

Indicator 1: Increase number of students employed in the Computer Networking field following completion of a certificate program.

Based on the 2013 follow-up report, three students were employed in the Computer Networking field after completing their certificates – one after receiving her PC technician certification and two after completing their Management Information Certificates. Last year two students were employed after completing their certificates, so our numbers increased.

Indicator 2: Increase the number of students employed in the Electronics field following completion of the certificate program.

Based on the 2013 follow-up report, two students were employed in the Electronics field after completing their certificates. The students received their Electronics Certification A certificates. Last year one student was employed after completing the certificate, so our numbers increased.

Indicator 3: Increase the number of students employed in the Respiratory Care field following completion of the degree program.

Based on the 2013 follow-up report, eight students were employed in the Respiratory Care field after completing their Respiratory Care AAS degree. Last year eleven students were employed after completing their Respiratory Care AAS degree, so our numbers decreased. However, the Respiratory Care Program has dramatically improved job placement rates. The graduating class of 2010 had a 50% job placement rate, the graduating class of 2012 had an 86% job placement rate, and the graduating class of 2013 had a job placement rate of 90%. The benchmark from the respiratory care accrediting agency is 70%. Our program has hired a new director and made improvements in curriculum and classroom instruction in order to improve the job placement rate. The outcomes show the changes were successful. What we need now are more students in the program. We have reduced the teaching load of the director allowing her to increase recruiting efforts, better advise students, and improve public relations. We have already seen an increase in enrollment in this year's freshman class (14 students) over last year's freshman class (10 students), and believe this increase in enrollment in the Respiratory Care Program will continue.

TIMELINE FOR OPERATIONAL PLANS FY2014

July 2013

1. All administrative areas will:
 - a) Complete the FY2013 Operational Plan reports (add Results and Comments, and change estimated costs to actual costs if possible) and submit to President's Office to prepare for President's Council in July.
 - b) Complete FY 2013 Highlights list and submit to President's Office to prepare for President's Council in July.
 - c) Submit an organizational chart to the President's Office to prepare for President's Council in July.
2. President's Council reviews completed FY2013 Operational Plans, Committee Support of Strategic Plans, and Highlights from all areas.
3. All areas prepare a list of any items NOT completed as anticipated in the FY2013 Operational Plans that still need to be completed.
4. President's Office prepares FY2013 Annual Report for the September BOT meeting. The Annual Report consists of:
 - a) All items listed in Strategic Planning Process (page 3 of LCC Strategic Plan FY2012-2016 document)
 - b) Organizational Charts
 - c) Highlights
 - d) Completed Operational Plans
 - e) Clubs and Organizations Report
5. VP of Academic Affairs and Dean of Instruction set priorities and focus for FY2015 and FY2016 Operational Plans from academic areas by end of July and share them with all other administrative areas.

August 2013

1. President's Council reviews, modifies and approves list of items not completed in FY2013 to be completed in FY2014.
2. President's Council reviews and recommends any changes to the Academic Affairs FY2015 and FY2016 Operational Plans.
3. Student Affairs, Finance and Operations, Foundation, and Public Relations will use the Academic Affairs FY2015 and FY2016 Operational Plans to:
Update or revise their first three areas of their Operational Plans for FY2015 and FY2016 (Objectives, Estimated Cost, and Expected Completion Date), share their reports with the other administrative areas, and submit to the President's Office by November 15.

September 2013

1. Board of Trustees reviews Annual Report for FY2013. (Following their review, the President's Office emails the annual report to IT to prepare PDF for October report.)

October 2013

1. Board of Trustees reviews Report of Student Learning (Outcomes Assessment).
2. Strategic Operations Advisory Committee will review the completed FY2013 Annual Report, FY2015-2019 five year visions, and review the Report of Student Learning. The committee will also review the list of items not completed in FY2013 to add to the FY2013 Operational Plans. (Once the list is reviewed, the FY2014 Plan will be modified by the President's Office to reflect these changes and be redistributed to all areas.)

3. IT Department will convert the Annual Report and Report of Student Learning into a PDF and post it to the President's Office page on the website. The President's Office will send out an email campus wide to announce the posting of both reports.

November 2013

1. Student Affairs, Finance and Operations, Foundation, and Public Relations will submit FY2015 and FY2016 Operational Plans to President's Office and will share them with the other administrative areas.
2. Integrate Perkins requests into Academic Affairs Operational Plans.

December 2013

1. Mid-year update report of FY2014 Operational Plans by Academic Affairs departments due to Betty Story.
2. The President's Office integrates FY2015 and FY2016 Operational Plans from all areas into one plan.

January 2014

1. FY2015 and FY2016 Operational Plans from all administrative areas will be sent by January 25 to President's Council to begin review.
2. The Dean and Academic Vice President will share significant changes found in their review of the mid-year update report of FY2014 Academic Affairs Operational Plan with President's Council. President's Council will begin to review the FY2015 and FY2016 Operational Plans from all administrative areas.

February 2014

1. President's Council will complete their review of the FY2015 and FY2016 Operational Plans from all administrative areas and approve the FY2015 Operational Plans.
2. Strategic Operations Advisory Committee will begin to review the FY2015 Operational Plans from all administrative areas after President's Council completes their review.
3. Both groups will review budget assumptions for the upcoming year.

March 2014

1. Strategic Operations Advisory Committee will complete the review of FY2015 and review FY2016 Operational Plans (Objectives, Estimated Cost, and Expected Completion Date) from all areas.

April 2014

1. President's Council reviews and revises their 5 year visions for FY2016-FY2020. (This is the first step of the next cycle.)
2. President's Office sends the revised 5 year visions to all LCC.

May 2014

1. Vice Presidents and President will prioritize the FY2015 Operational Plans at the budget meeting. These plans will be considered as part of the budget process.
2. The finalized FY2015 Operational Plans will be sent to all LCC.
3. Academic Affairs departments will:
 - a) Complete the FY2014 Operational Plan report (add Results and Comments, and change estimated costs to actual costs if possible) and submit to Betty Story.
 - b) Update the first three areas of the Operational Plans for FY2016 and write the 2017 (Objectives, Estimated Cost, and Expected Completion Date) and submit to Betty Story. Be sure to use the 5 year Visions from President, VP's and Dean for guidance.

(The FY2015 plans go into effect in July 2014 while faculty members aren't under contract, so FY2017 is considered here as being 2 years out).

- c) Submit optional 5 year visions FY2016-2020 for departments to Dean of Instruction
- d) Complete Highlights FY2013 list on WIKI
- 4. Committee Chairs submit Committee Support of Strategic Plan FY2014 to Betty Story.
- 5. FY2015 Operational Plans that were prioritized in March are prepared in June by the President's Office for the BOT's Budget Work Session in July.

June 2014

- 2. All administrative areas will:
 - a) Complete the FY2014 Operational Plan reports (add Results and Comments, and change estimated costs to actual costs if possible) and submit to President's Office to prepare for President's Council in July.
 - b) Complete FY 2014 Highlights list and submit to President's Office to prepare for President's Council in July.
- 3. Academic Affairs VP will submit the Committee Support of Strategic Plan and FY2014 Clubs and Organizations Year-End Report and organizational chart to the President's Office to prepare for President's Council in July.
- 4. President's Council will review the current Strategic Plan. Any changes will be applied to the FY2016 Operational Plans.

UPDATED April 15, 2013
President's Vision
Labette Community College
5 Year Vision
FY 2015-2019

PREFACE

As much as I would **not** like to write a preface to my five-year vision I feel it is necessary and prudent to do so in light of the fiscal situation the State of Kansas finds itself in as we plan our strategic direction. Since the last update of the "President's Five-Year Vision" The State of Kansas finds itself in the worst fiscal shape since 2002. We have three factors that compound any decisions we make for at least the next four to six years.

- The legislative mandate for a new funding formula for technical education. The community college system is advocating for a formula that includes general education. The technical colleges aren't comfortable with the inclusion. The new funding model requires an additional \$58 million dollars to fund;
- The Governor continues to propose a freeze on all budgets and an even greater loss of State revenue ; and
- Labette Community College is in negotiations with the Faculty Association for the renewal of their Master Agreement.

PRESIDENT'S VISION/GOALS

These visions or goals are not in any particular order. A majority of these goals have financial implications. All these goals surround and give support for our student body.

- Critical to the success of our College over the next five years will be our involvement in workforce development. Over the past several years there has been outstanding progress in Workforce Development. Our college must consider additional resources to enhance and advance those efforts. The Great Plains Development Authority is now in full control of the former army ammunition plant property and they are actively searching for major businesses to re-locate and establish a new presence in Kansas. It is and will be critical to be in a position to be the institution looked to as leaders in the workforce training business. We must be able to respond and take the leadership role in training almost at a moments' notice.
- New programs: Looking toward the future of our vision, I strongly suggest that we explore new program possibilities that will support the development of the Great Plains Development Authority
- I think it remains critical to expand our relationships and partnerships with other colleges and universities. We have established a relationship with Independence Community college in a variety of areas and with Pittsburg State University in the area of education. Our state-wide transfer and articulation agreements enhance the opportunities we have for our students. We can't do it all and with continued budget constraints but it just makes sense to partner.
- Student housing continues to be a critical need for our College. We are inching closer to a goal of having an investor(s) build a dorm facility that will serve about 200 students. This will provide us with an opportunity and a challenge. We will now have

the opportunity to develop specific programs for our students housed on campus. Additionally we will need to offer a full-service meal plan for our students. We will need to seek out a food service company to accomplish that task.

- With the completion of Phase One of our Capital Campaign we need to turn our focus and attention to Phase Two: the addition of enhanced athletic facilities. Adding locker rooms, free weight rooms, a wrestling facility, indoor baseball and softball practice space and additional athletic offices.
- Adding a full-time athletic director to manage our athletic programs, facilities, and fundraising efforts.
- It will be imperative that we add a position for institutional research to deal with both in-house requests and the Board of Regents institutional research requests.
- Lastly I think that LCC should start the re-building process of our music program, building on our past, and utilizing segments of the closed Recording Arts Technology program and possibly enhancing the program through a consortium with Independence Community College and Allen County Community College.

FY2015-2019**

The Academic Affairs Administrative Area will:

1. Support and participate in the needs required to move the Health Science areas into the new Health Science Building.
2. Support and participate in the needs required to move other programs into the previous Health Science Building.
3. Support and participate in the needs required to move various people to various places provided by the opportunities created from the above two moves.
4. Prepare for accreditation through participation in the Higher Learning Commission Pathways Cohort.
5. Prepare for KBOR Performance Agreement approval annually.
6. Ensure LCC courses approved as Transfer and Articulation courses by KBOR to provide seamless transfer, meet all of the syllabi requirements.
7. Provide a budget that supports the best possible learning opportunities for our students at the main campus, Cherokee Center, extension sites, Hybrid, and online.
8. Support the college through full participation in committee work by all Academic Affairs personnel and ensure committees are accomplishing their purpose statements and highlights are shared with Academic Affairs staff.
9. Support student clubs and organizations and ensure they are accomplishing their goals.
10. Ensure all Career Technical Education programs utilize industry-recognized assessment tools, and that all programs fully participate in KBOR alignment opportunities when scheduled to do so.
11. Address the workforce training needs of our service areas by offering courses at their places of business or on our campus, center, online or extension sites.
12. Implement new programs to serve the needs of our community – especially in regard to the Great Plains Development Authority.
13. Explore additional 2+2 Articulation Agreements with colleges, course and program Articulation Agreements with high schools, and expand our relationships and partnerships with other institutions.

14. Assist with the development of programs for our students housed in the new student housing complex once it is built.
15. Ensure that Library services are available to provide adequate learning support for our students and staff.
16. Ensure academic program reviews accurately reflect the needs of our programs, and that the needs are pursued through the departmental operational plans.
17. Provide a full-time/adjunct instructor ratio that allows for the best learning opportunities for our students as budgets will allow.
18. Work cooperatively with the Eastern Kansas Adult Education Consortium to provide for the needs of our adult education students.
19. Provide course development opportunities to add and improve course offerings and delivery methods to meet the needs of our programs and students.
20. Provide for instructional growth through use of professional development funds.

Finance & Operations Vision
Labette Community College
5 Year Vision
FY2015-FY2019

PREFACE

Over the next five years we will be experiencing a gradual improvement in our financial situation, however we must continue to focus on ways to reduce unnecessary expenditures and at the same time be creative in our approach to generate new revenue. We will need to carefully analyze the needs of the college and determine priorities for allocation of new funds. The new health science building will be completed and we will need to determine the best use of the vacated space.

Finance & Operations Vision

- Complete the building phase of the new health science building and focus the long term planning to maintain both the facility and equipment needs.
- Determine the best use of the vacated health science building, the renovations necessary and a plan of action.
- Help the dental assisting program get off to a good start.
- The upcoming years will be critical to the success of the Cherokee Center. Focus on the Cherokee Center to improve our enrollment and better serve the students in this area.
- Pursue avenues to generate more revenue necessary to better serve students.
- Carefully analysis all expenditures to make reductions wherever feasible.
- Evaluate internal processes and procedures to maximize efficiency and productivity.
- Carefully monitor changes made to the state funding formula to determine to best new programs to develop and which areas will generate the most revenue to make the best decisions for expansion.

**LABETTE COMMUNITY COLLEGE
COMMITTEE SUPPORT OF STRATEGIC PLAN FY2014**

CORE VALUE OUTCOMES

Core Value 1: Student Learning: Labette Community College makes every effort to provide collegial programs and services by providing a caring and qualified faculty/staff to assist all students and community members in attaining the foundational skills and knowledge essential for success in work and in life, in a supportive and accountable environment.

Outcomes

Outcome 1A. Cultivate a culture in which services, practices, policies, procedures, and personnel support learning as a major priority.

Curriculum and Instruction:

- a. The C&I Committee reviewed curriculum to ensure appropriate learning strategies were being applied in academic courses, and aligned academic content with academic standards. The committee also evaluated course and/or program level outcomes and competencies and ensured CTE programs were meeting KBOR Perkins eligibility requirements and credentialing agency requirements.

Distance Education:

- a. The Distance Education Committee continued to have as a major component of each Committee Meeting a “Great Ideas For Teaching” presentation suitable for online instruction. This included the difficulties inherent to signing up students with online homework platforms, a review of an article from FacultyFocus.com titled “Private Journal Replaces Discussion Forum in Blended Course,” a review of a remedial reading website called ReadTheory.org, a review of an article from FacultyFocus.com titled “Frequent, Low-Stakes Grading: Assessment for Communication, Confidence.”
- b. The Distance Education Committee promoted the use of the STARLINK videos as professional development by beginning each meeting with a video. Videos viewed this semester by the committee included - Online Teaching Strategies: The Benefits of Collaborative Learning, Online Teaching Strategies: Yielding Products and Setting Goals, Online Teaching Strategies: Autonomy for Students, eLearning Innovations: Curriculum Development for Online Courses, Online Teaching from Award Winning Professors: Providing Visual Information.

Diversity:

- a. The committee reviewed the college's policies and procedures dealing with diversity to determine if they were in line with the committee's goal of diversity. The committee then submitted changes that were made to the policies and procedures to the President's Council. The Council approved the amended college procedures and referred the amended college policies to the Board of Trustees for approval.

Instructional Outcomes and Assessment Committee:

- a. The Outcomes and Assessment Committee discussed revisions to the Course Outcomes Assessment instrument in an effort to better define student learning success and simultaneously simplify the instrument. The committee's recommendations were approved by the faculty and VP of Academic Affairs.
- b. LCC completed the third of three years of the Writing Across the Curriculum longitudinal study. Faculty members were allowed a reduced number of interventions and discussed discipline specific ways to interpret the Writing Matrix
- c. Student improvement writing endeavors will continue beyond the three year project to include students in English Comp 1 and utilizing the nationally normed CAAP test.
- d. The Report of Student Learning was approved. This includes student results for CAAP test results and various program student credential results.
- e. Program faculty members have developed Program Matrices which will enable each program to objectively identify program strengths and weaknesses.
- f. All adjunct faculty members' Course Outcomes and Assessment reports were reviewed for accuracy. When issues were identified, adjunct faculty members were notified.
- g. Discussed the utilization of short "How to" videos to aid faculty in various reporting processes. The committee approved the list of topics. These are in process of development.

Library:

- a. The members of the Library Committee advise and suggest ways to improve existing library services and offer suggestions for new ones.
- b. The members of the Library Committee advocate for the library in their respective departments and groups.

Outcome 1B. Strive to make the student's experiences with LCC positive, nurturing, and focused on student learning and academic success.

Curriculum and Instruction

- a. The C&I Committee focused on student learning and academic success by reviewing catalog changes, revising course outcomes and competencies, and aligning program processes.
- b. The following courses were added to the General Education Electives to give students the flexibility needed to change majors: English Comp I, English Comp II, Fundamentals of Speech, and Lifetime Fitness.
- c. Faculty reviewed all courses to determine appropriate reading level requirements.

Distance Education:

- a. The Distance Education Committee reviews all new online courses developed by new instructors and offers recommendations to experienced instructors who seek the committee's input on new online courses.
- b. The Distance Education Committee also sought recommendations for ways RedZone could be improved for a FOCUS Group meeting being held with the developers of RedZone.
- c. The Distance Education Committee asked online instructors to review their test proctoring procedures and participate in a survey being conducted by the Administration on test proctoring procedures. The committee also advised instructors to make sure students were notified with ample time of their expectation.
- d. The Distance Education Committee discussed the use of synchronous online meeting software as well different versions that might be purchased by the college.
- e. The Distance Education Committee discussed different ways instructional material could be presented to an on-ground class within the "flipping the classroom" model.
- f. The Distance Education Committee discussed different possible training formats for new instructors to include possible online orientation courses and "Jing How To" videos.

Diversity:

- a. The committee sponsored or supported multiple events during the 2013-2014 year for students, faculty and staff to promote dialogue on a range of diversity issues including a Veteran's Day Celebration, the Race Card Project and support of the Community Cinema program.

Enrollment Management:

- a. The Enrollment Management Committee reviewed the national Noel Levitz Student Satisfaction Inventory.

Library:

- a. The Library Committee awards prizes in the Paper of the Year. The committee members read and judge each submission. The committee also evaluates the award criteria, seeking to improve it.

Outcome 1C. Make accessible a variety of services and programs that address learning needs.

Curriculum and Instruction:

- a. The C&I Committee supported COMPASS assessment for placement in math, reading and writing for all students not having the necessary ACT/SAT scores to enroll in the required math and English courses for their degree. Students completed this test in the Student Success Center on campus, at the Cherokee Center, or at their high school prior to enrollment, and were informed of services and programs that address learning needs.

Distance Education:

- a. The Distance Education Committee committed to utilizing new technology in support of online education. The committee spent considerable time discussing some of the features and problems with the Jenzabar LMS. Features discussed included things such as: discrepancies between how test answers show up in student assignments and in test builder, the various review options for students completing assignments in RedZone, problems with the View button in RedZone Discussion Boards, cut and paste problems within RedZone's text editor, the use of synchronous discussion features within RedZone, the use of subsections within RedZone, upgrade issues with respect to use of IE8, gradebook issues in RedZone, and the existence of Jenzobar training or webinar training for instructors in the use of RedZone.

Library:

- a. The Library Committee advises the staff and monitors the grant process to obtain an ADA compatible workstation.
- b. The Library Committee advises the staff and monitors the grant process to obtain the furnishings and to set up the quiet area for those learners needing a more quiet study environment.

Outcome 1D. Use technology to expand opportunities for student learning and student services.

Distance Education:

- a. The Distance Education Committee continued to have as a major component of each Committee Meeting a “Great Ideas For Teaching” presentation suitable for online instruction. This included the difficulties inherent to signing up students with online homework platforms, a review of an article from FacultyFocus.com titled “Private Journal Replaces Discussion Forum in Blended Course,” a review of a remedial reading website called ReadTheory.org, a review of an article from FacultyFocus.com titled “Frequent, Low-Stakes Grading: Assessment for Communication, Confidence.”

Instructional Outcomes and Assessment Committee:

- b. IT created a report which links Course Outcomes to Program Outcomes. This report will enable future changes to the Course Outcomes and Program Outcomes.

Library:

- a. The Library Committee continues to advise and monitor updates to the library’s web pages and electronic resources.

Outcome 1E. Provide quality programs and services at the main campus, the Cherokee Center, all extension sites, and online.

Curriculum and Instruction:

- a. The C&I Committee approved:
 1. Child Care and Support Services Management Program revised to meet KBOR request
 2. Child Care Certificate revised to meet KBOR request
 3. Music A.A. Degree reinstated
 4. Exercise Science A.S. degree approved

Distance Education:

- a. The Distance Education Committee approved the offering of the following courses online this past year:
 1. Pathology for the PTA

Instructional Outcomes and Assessment Committee:

- a. Tracking Program Outcomes through Course Outcomes’ results utilizing the Program Matrix will support a more robust evaluation of program success.

7/28/14

Library:

- a. The Library Committee advocates, monitors and advises the staff on the needs of the main campus, Cherokee Center, extension and online programs.
- b. The Library Committee will inform their areas of the changes in the database offerings and updates. They will refer their students to these resources.

Core Value 2: Education for a Globally Connected World: Labette Community College promotes the diversity in our communities and our world by valuing the dignity, worth, and potential of all persons; by using diverse delivery methods and evolving technology; and by improving the communities we serve through civic engagement opportunities.

Outcomes

Outcome 2A. Improve and expand linkages with educational partners and community agencies for mutual benefit.

Curriculum and Instruction:

- a. The C&I Committee reviewed course transferability to baccalaureate degree programs with four year institutions.
- b. The C&I Committee reviewed courses for Workforce Education, Career Training, and Personal Enrichment.

Diversity:

- a. Although the committee did not do activities to support the specific outcomes of this core value, the committee exists to promote the diversity of our service area and the world beyond. We support and encourage the discovery and learning about other cultures and viewpoints which hopefully lead the students to valuing the dignity, worth and potential found in all people. We also encourage the students to broaden their viewpoint, challenge and/or examine their own viewpoints and to make needed changes in those viewpoints for success in our changing world. One of the specific projects that the committee supported that furthered this goal was the support of the Community Cinema program. This year's movies and discussions focused on the combination of race, religion and wartime dissent, the struggles of small town cultures, and the way that gays are perceived in the African American culture.

Outcome 2B. Respond to the diverse learning needs of our community.

Distance Education:

- a. The Distance Education Committee continued to explore the best use of the College's resources in providing online education by continuously evaluating online platforms and technologies and seeking to find better ways to offer training to instructors in the use of the technologies available to them.
- b. The Distance Education Committee continued to support the professional development of online education by providing new information about online learning, and providing links to important scholarly studies and training videos.

- c. The Distance Education Committee discussed and conducted a usage survey of various software packages currently available to LCC faculty to ensure that college funds were being spent wisely.

Library:

- a. The Library Committee advises the staff and monitors the grant process to obtain an ADA compatible workstation.
- b. The Library Committee advises the staff and monitors the grant process to obtain the furnishings and to set up the quiet area for those learners needing a more quiet study environment.

Outcome 2C. Increase the availability of skilled workers to meet the needs of the community and the State.

Outcome 2D. Engage students in contributing to the well being of their community through community service.

Outcome 2E. Offer a variety of online and on-ground courses at the main campus, the Cherokee Center and all extension sites to best meet the needs of our students.

- f. The Distance Education Committee discussed different possible training formats for new instructors to include possible online orientation courses and "Jing How To" videos.

Enrollment Management:

- a. The Enrollment Management Committee, through the Financial Aid Appeals Subcommittee, improved the process by including a degree audit requirement so students and advisors are more aware of what is needed for successful completion of a degree.

Library:

- a. The Library Advisory Committee advocates for the needed library services for the faculty and students in their respective departments and groups.
- b. The Library Committee keeps apprised of the Library's non-curricular program reviews, operational plans and budgets giving input on their content.

Core Value 4: Integrity and Transparency: Labette Community College operates in an environment of integrity and transparency through honest ethical practices, open communication, and accountability, for transactions with all constituencies.

Outcomes

Outcome 4A. Improve tracking of and access to data to meet the needs of the institution and external contingencies.

Instructional Outcomes and Assessment Committee:

- a. Currently, we are updating Course Outcomes' links to Student Learning Outcomes. Course Outcomes are updated through the year and must be updated in the various matrices. There are Course Outcomes which have yet to be linked to Student Learning Outcomes, this, too, is being updated.
- b. IT created a report which links Course Outcomes to Program Outcomes. This report will enable future changes to the Course Outcomes and Program Outcomes.

Outcome 4B. Promote responsible stewardship of resources and public trust.

Library:

- a. The Library Committee is kept aware of the Library's budget and gives input on the purchasing of resources.

Outcome 4C. Enhance the college image to stakeholders to generate business and community support by communicating the value and benefit of the college.

Outcome 4D. Strengthen internal communication practices.

Distance Education:

- a. The Distance Education Committee promoted internal communication by releasing immediately after each meeting a summary of what happened at that meeting. These summaries were emailed to all faculty and staff. Once approved, the minutes were also emailed to all faculty and staff.

Core Value 5: Sustainability of the Institution: Labette Community College encourages innovation and personal growth, maintains financial accountability, supports student retention and success, and plans strategically for the future, while adhering to state, federal, and governing agency guidelines.

Outcomes

Outcome 5A. Achieve targeted growth through an integrated enrollment management process.

Diversity:

- a. The committee began the process of assessing the diversity needs of the college by engaging in the Race Card Project. It was determined that this area did not need to be further pursued.

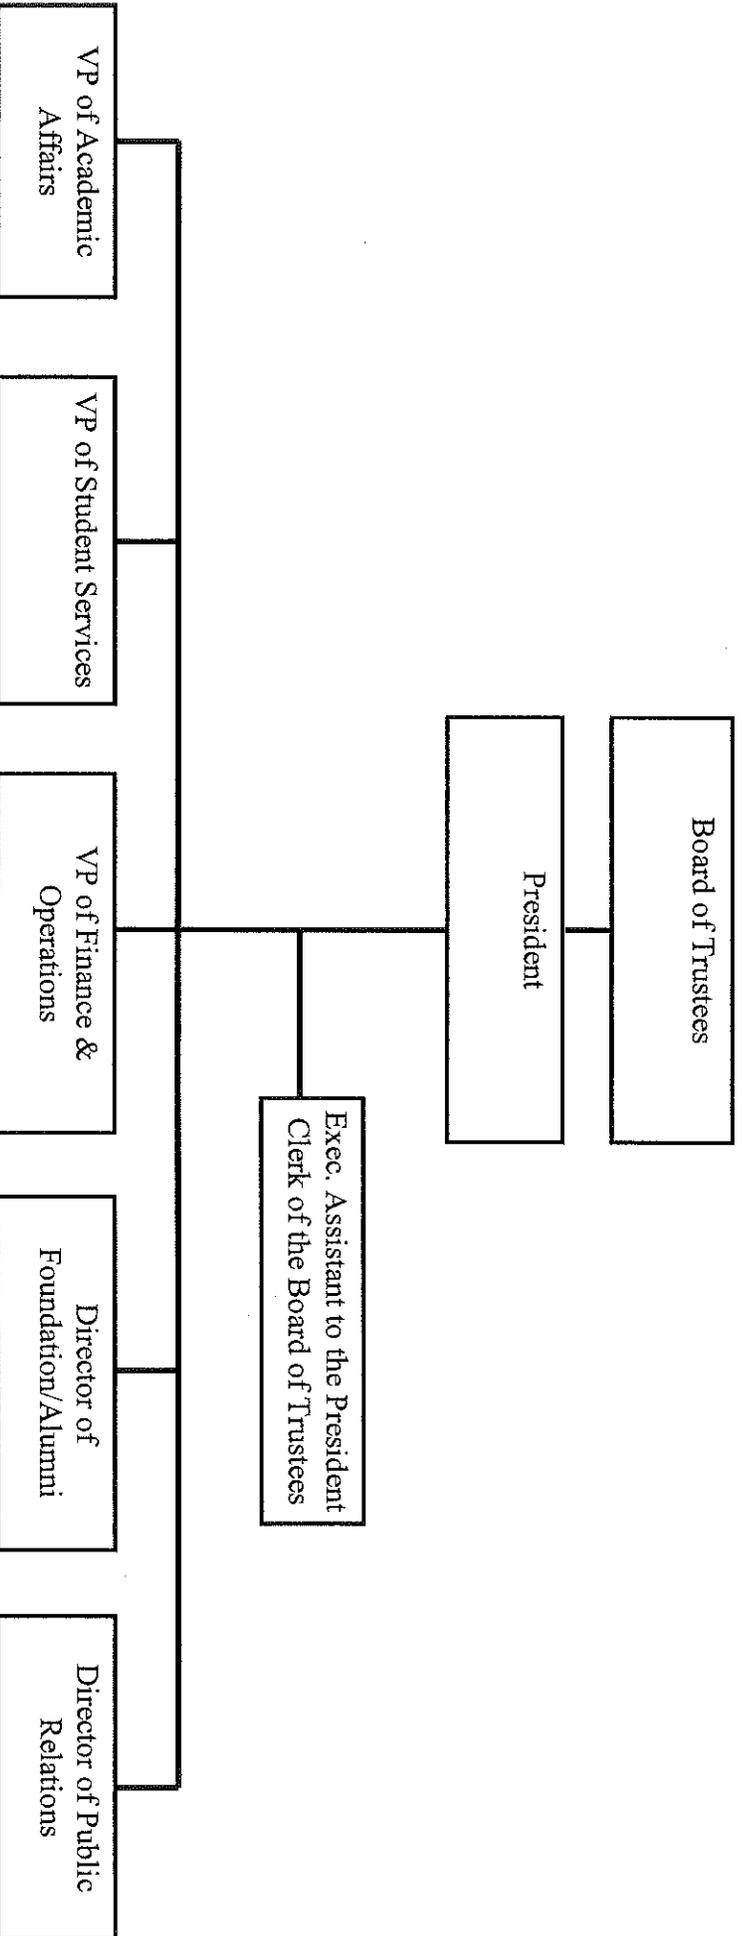

Enrollment Management:

- a. The Enrollment Management Committee supported the Student Affairs Office to provide a weekly email informing LCC employees of the current enrollment and progress towards enrollment goals.

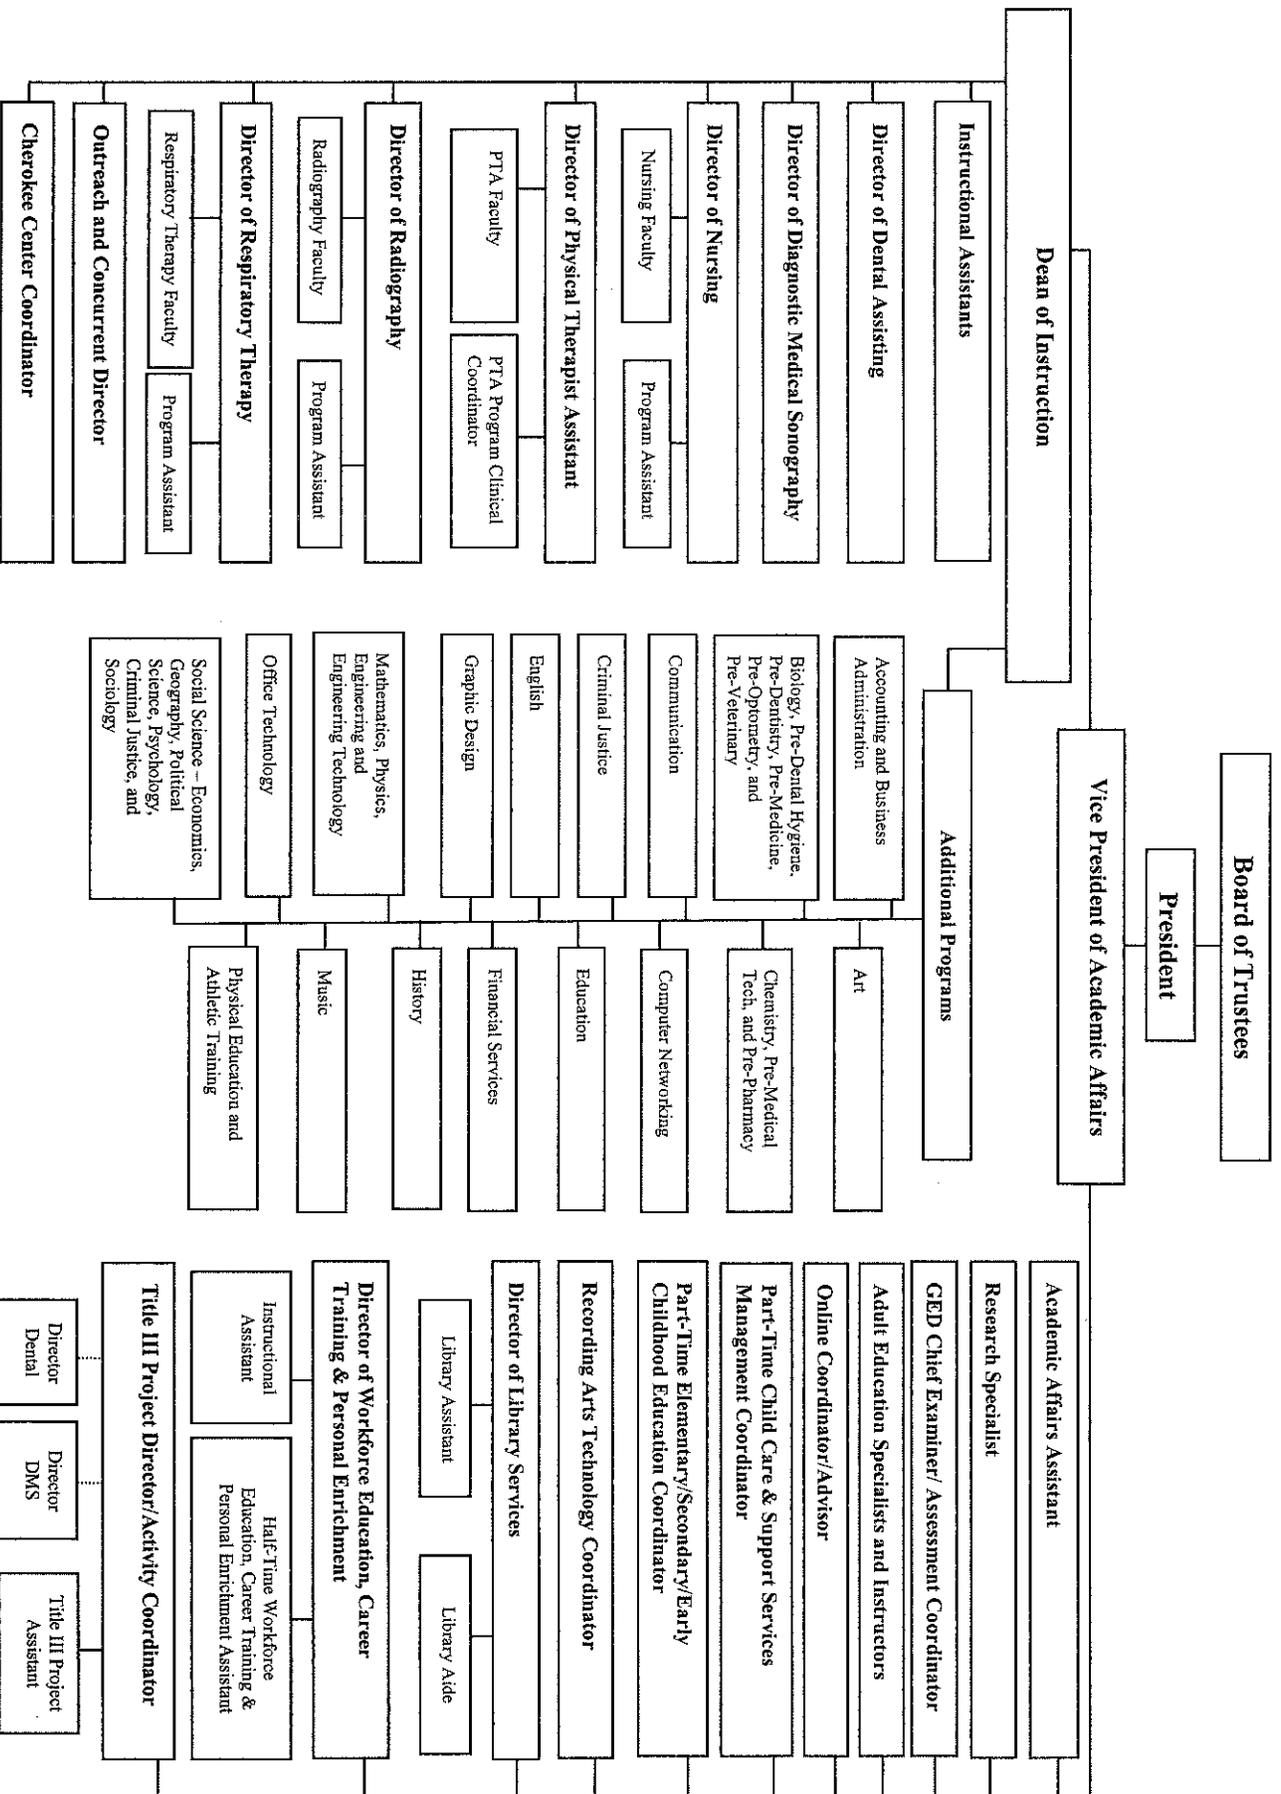

Outcome 5B. Enhance student opportunities through increased scholarships and endowments.

Outcome 5C. Enhance the economic, academic, and social environment of the college to recruit and retain quality employees.

Objective 1	Reevaluate the library's online periodical database holdings in line with the state library's plan of evaluating databases.	
Estimated Cost	Existing Money \$	New Money One Time \$
	Grant Funded \$	New Money Ongoing \$
	Department Budget: Library	Student Fees (New/Existing) \$
Exp. Completion	April 2014	
Results	The library renewed the subscription on two of the periodical databases through a consortia purchase with the other two year colleges in the state. Another database was dropped due to decrease of funding.	
Comments	No funding needed. Reallocation of current funding. The departmental budget funds will be rearranged to include the needs of this area as required.	
Objective 2	Increase print holdings for the new Title III programs making sure that the library has the programs' standard materials.	
Estimated Cost	Existing Money \$3249	Grant Funded \$
	New Money One Time \$	New Money Ongoing
	Department Budget: Library	Student Fees (New/Existing) \$
Exp. Completion	May 2014	
Results	Books were purchased in Ultrasonography, Dental Assisting and Physical Therapy Assistant. Periodical holdings were also increased in all three areas. No new funds were designated for this. So, existing money was reappropriated for this.

Estimated Cost	Existing Money \$	New Money One Time \$
	Grant Funded \$	New Money Ongoing \$
	Department Budget: Library	Student Fees (New/Existing) \$
Exp. Completion	February 2014	
Results	I discussed the possibility of this with John Ford, Melissa Kipp, Greg Brewer and Mike Brotherton. Mike did some research on the cardinal for the 90 Anniversary display in the gallery. This knowledge will go to the mural. A concept design has been formulated but no actual work has begun on the mural.	
Comments	No funding needed. I will be consulting with the Graphic Design and Art departments on this. This will also be a drawing card for the community.	

Mathematics / Physics

	Department Budget: Math	Student Fees (New/Existing) \$
Exp. Completion	Ongoing	
Results	McGraw-Hill's transition from MathZone to Connect Math is complete. Online Elementary Statistics and Online College Algebra have both successfully made the transition.	
Comments	Connect Math is in use for all Online College Algebra and Online Elementary Statistics courses. Connect Math is in use at the instructor's discretion in Beginning, Intermediate, and College Algebra.	

Nursing

Objective 1	Program plans to add required course work to program. KBOR allows nursing programs 76 credits. We will evaluate the need to add health assessment as a requirement and add transitions and trends I and II as standalone courses.	
Estimated Cost	Existing Money \$0	New Money One Time \$0
	Grant Funded \$0	New Money Ongoing \$0
	Department Budget:	Student Fees (New/Existing) \$
Exp. Completion		
Results	Not Complete-New ACEN Requirements	
Comments	ACEN is now limiting ADN programs to 65-72 credit hours. If the Transition and Trends courses are added, this would make more than 72 credits in the nursing program, unless the program drops a general education course requirement. LCC nursing program will re-evaluate the required coursework for program accreditation compliance.

Dee, Kara, Gale, and Nancy serve on their Advisory Board.</p> <p>Workforce efforts are not so much about articulation agreements as SB155 and include the following schools: Riverton, Baxter, Galena, Columbus, LCHS, Parsons, Girard, Pittsburg. Nancy is currently tweaking the tiered-technical course list for a mass communication with area high schools so they will know what is available to students. The list will include the courses that receive the \$1000 reimbursement, AND courses that only get the tuition waiver.</p> <p>We have also had conversations with Erie High School.</p> <p>We partner with Girard Medical Center, Girard Schools, Arma Schools, and Cherokee County for tuition scholarships for their employees.</p>
