# Labette Community College

## Introduction

**Dr. Mark Watkins, Ed. D.**  
President

The 2022 Annual Report is a comprehensive description of how Labette Community College satisfied its mission, "...to provide quality learning opportunities in a supportive environment for success in a changing world" during the year, July 1, 2021, through June 30, 2022.

The big change here on campus has been the gymnasium remodeling and the athletic and academic complex construction. It is a wonderful addition to our campus which will help with student recruitment and provide our athletic teams a practice facility during days of inclement weather. We look forward to our grand opening event which will occur later in the fall 2022 semester.

In preparation for the upcoming HLC visit in 2025, we have been participating in the Higher Learning Commission's Student Success Academy to look for ways to be more effective when serving our students. Additionally, our Strategic Enrollment Management Team has been working to improve student recruitment, onboarding, retention, and completion.

Our Career and Technical Education Programs continue to educate and graduate students who fill local needs in the health and business industry. One bright spot included all LCC Radiography graduates who successfully passed their national board exams. In total, the college awarded 278 degrees and certificates to 255 students during the spring commencement.

We appreciate the support of our students and local communities!

Go Cardinals!

Mark Watkins  
President

## Core Values

LCC faculty, staff, and administration have attempted to demonstrate how well we have satisfied our five Core Values during the 2021-2022 Academic Year.

### Data Generation

Data generated to measure how well we are fulfilling our Core Values derives from our Operational Plans. In the example below (Core Value 1, Outcome 1B, Objective 1), The English Department will develop a multi-modal learning component in English Composition 101. Once the academic year was completed, a rating was determined by the department responsible for the objective. In this case, the department assigned a four out of a possible four to the Satisfactory level of objective completion.

### Core Value 1: Student Learning

Labette Community College makes every effort to provide collegial programs and services by providing a caring and qualified faculty/staff to assist all students and community members in attaining the foundational skills and knowledge essential for success in work and in life, in a supportive and accountable environment.

It will also improve the aesthetics of a facility and provide a talking point for community members. This has been approved by the administration and the Foundation. |  | Satisfactory Level Rationale: | The mural was printed and installed by Phil Jack as one of his last projects before retiring. The five students who collaborated and created the mural are remembered with their names on the mural. We have had many comments. We have announced the installation internally in the Ad Libs, and we are planning to announce it through other library outlets statewide and regionally.   |                             |    |

|  | Rating Rationale:                | Many of the local community colleges with dorms have instituted game nights for students. The Library has a small collection of board games that have been donated by the Library Director. The Library staff will build on this collection to give the students more variety. The game nights will offer light snacks.   |                             |       |

|  | Satisfactory Level Rationale:    | The Library received a \$1500 grant in October from the Southeast Kansas Library System to develop a game collection for this. We are currently determining which games to buy. We have also done a survey of the students to find out what students would like to see in game nights. |   | Rating Rationale:             | Currently, there is an old and small autoclave in M 106 that was obtained from the dental assisting program when the 30+ year-old autoclave in M106 was broken beyond repair. This small autoclave is working fine but is too small and requires running multiple cycles each day to sterilize the culture medium and used tubes and plates. It would be beneficial and time-saving to purchase a medium-sized autoclave. Also, in the event that the current one stops working, we need to have an additional autoclave to continue the lab exercises in Microbiology. Labs cannot be conducted in Microbiology in the absence of an autoclave. |                              |          |

|  | Satisfactory Level            | The new autoclave was purchased in Fall 2021. The purchase price is approximately \$16,000.   |                             |         |

|  | Rating Rationale:             | Different chemicals, media, Petri plates, etc. are essential for the lab portion of Microbiology class. Since we offer 7-10 sections of Microbiology during each academic year, we consume a lot of supplies. Lab supplies and chemicals are needed to conduct lab exercises in Principles of Biology I class (offered only during the Fall semester) Lots of supplies are needed for different sections of General Biology labs as well. |                             |         |
